

What do they
THINK AND FEEL?

what really counts
major preoccupations
worries & aspirations

Why bank uses
this tradional
way

Can it be
accurate

What are the
parameters your
project will
monitor?

What do they
SEE?

environment
friends
what the market offers

What do they
SAY AND DO?

attitude in public
appearance
behavior towards others

At last
AI engineers
has found a
solution to this
problem

Will cost
the job of
cashier

It will reduce the
human error

Reduces
Workload

They use
40,000 dataset
and 10,000
dataset for
training

Amazing
Technology

Is it
Reliable

Revolution
in Banking
system

It includes
Image
Processing

What do they
HEAR?

what friends say
what boss say
what influencers say

PAIN

fears
frustrations
obstacles

Training is time
consuming and
computationally
expensive

What If
there is a Bug
in program

Can it
withstand the
noise in the
image

GAIN

"wants" / needs
measures of success
obstacles

At last instant
deposit and
withdrawal of
check

It is the
efficient
way

It eliminates
Human error
